Contents

NUMBER 1, MARCH

J. Roberts and B. A. Engel: Depositional and tectonic history of the southern New England Orogen 1

D. Wyborn, B. S. Turner and B. W. Chappell: The Boggy Plain Supersuite: A distinctive belt of I-type igneous rocks of potential significance in the Lachlan Fold Belt 21

K. D. Corbett and T. C. Lees: Stratigraphic and structural relationships and evidence for Cambrian deformation at the western margin of the Mt Read Volcanics, Tasmania 45

R. D. Shaw, J. F. Fawckner and R. J. Bultitude: The Palmerville fault system: A major imbricate thrust system in the Northern Tasmanides, North Queensland 69

G. Begg, J. P. Burg and C. J. L. Wilson: Ductile and brittle deformation in the Cann Valley Granitoids, Victoria 95

P. A. Morris: Inclusion-bearing nepheline hawaiite from near Woolomin, northeastern New South Wales 111

V. J. Morand: Structure of the Abercrombie Beds south of Reids Flat, New South Wales 119

J. A. Hallberg: Postcratonization mafic and ultramafic dykes of the Yilgarn Block 135

R. Helby, V. D Wiggins and G. J. Wilson: Geological Note: The circum-Pacific occurrence of the Late Triassic dinoflagellate *Sverdrupiella* 151

I. R. Williams: Geological Note: Late Proterozoic glaciogene deposits in the Little Sandy Desert, Western Australia 153

NUMBER 2, JUNE

B. L. Gulson and M. Vaasjoki: Lead isotope data from the Thalanga, Dry River and Mt Chalmers base metal deposits and their bearing on exploration and ore genesis in eastern Australia 159

S. L. Harley: Precambrian geological relationships in high-grade gneisses of the Rauer Islands, east Antarctica 175

A. J. W. Gleadow and C. D. Ollier: The age of gabbro at The Crescent, New South Wales 209

C. G. Murray, C. L. Fergusson, P. G. Flood, W. G. Whitaker and R. J. Korsch: Plate tectonic model for the Carboniferous evolution of the New England Fold Belt 213

R. A. Henderson: An oblique subduction and transform faulting model for the evolution of the Broken River Province, northern Tasman Orogenic Zone 237

D. M. Finlayson and C. D. N. Collins: Crustal differences between the Nebine Ridge and the central Eromanga Basin from seismic data 251

C. A. Fleming: Some nineteenth century trans-Tasman influences in geology 261

NUMBER 3, SEPTEMBER

C. V. Murray-Wallace and R. W. L. Kimber: Evaluation of the amino acid racemization reaction in studies of Quaternary marine sediments in South Australia 279

R. W. Lawrence, P. R. James and R. L. Oliver: Relative timing of folding and metamorphism in the ruby mine area of the Harts Range, central Australia 293

M. Solomon, J. L. Walshe and C. J. Eastoe: Experiments on convection and their relevance to the genesis of massive sulphide deposits 311

W. T. Ward and K. G. Grimes: History of coastal dunes at Triangle Cliff, Fraser Island, Queensland 325

B. W. Smith and J. R. Prescott: Thermoluminescence dating of the eruption at Mt Schank, South Australia 335

G. J. Gardner, A. J. Mortlock, D. M. Price, M. L. Readhead and R. J. Wasson: Thermoluminescence and radiocarbon dating of Australian desert dunes 343

H. A. Martin, L. Worrall and J. Chalson: The first occurrence of the Paleocene *Lygistepollenites balmei* Zone in the Eastern Highlands Region, New South Wales 359

C. R. Twidale: Etch and intracutaneous landforms and their implications 367

R. Loosveld and G. Schreurs: Discovery of Thrust klippen, northwest of Mary Kathleen, Mt Isa Inlier, Australia 387

A. P. Belperio: Geological Note: Hydrocarbon potential of Late Proterozoic graben sediments 403

NUMBER 4, DECEMBER

P. R. Williams and B. H. Harahap: Preliminary geochemical and age data from postsubduction intrusive rocks, northwest Borneo 405

J. McPhie: The Hianana Volcanics: Remnants of a Late Permian tuff ring and lava flow, Coombadjha Volcanic Complex, northeastern New South Wales 417

W. Compston, I. S. Williams, R. J. F. Jenkins, V. A. Gostin and P. W. Haines: Zircon age evidence for the Late Precambrian Acraman ejecta blanket 435

W. K. Witt: Fracture-controlled feldspathic alteration in granites associated with tin mineralization in the Irvinebank–Emuford area, northeast Queensland 447

C. P. Swager, W. G. Perkins and J. G. Knights: Stratabound phyllosilicate zones associated with syntectonic copper orebodies at Mt Isa, Queensland 463

A. Stewart and K. Mitchell: Shatter cones at the Lawn Hill circular structure, northwestern Queensland: Presumed astrobleme 477

T. J. Falloon, D. H. Green and A. J. Crawford: Dredged igneous rocks from the northern termination of the Tofua magmatic arc, Tonga and adjacent Lau Basin 487

D. Denham, L. G. Alexander, I. B. Everingham, P. J. Gregson, R. McCaffrey and J. R. Enever: The 1979 Cadoux earthquake and intraplate stress in Western Australia 507

I. R. Fletcher, W. G. Libby and K. J. R. Rosman: Geological Note: Sm–Nd dating of the 2411 Jimberlana dyke, Yilgarn Block, Western Australia 523

C. L. Adamson, K. H. R. Moelle and D. R. Mason: Geological Note: Pyro-intrusive veins in the northeastern Sydney Basin 527

D. E. Leaman, A. V. Brown and E. Williams: Discussion: Stratigraphic and structural relationships and evidence for Cambrian deformation at the western margin of the Mt Read Volcanics, Tasmania 531

K. D. Corbett and T. C. Lees: Reply to Discussion: Stratigraphic and structural relationships and evidence for Cambrian deformation at the western margin of the Mt Read Volcanics, Tasmania 533
